**Cialis** – Generic Cialis is a drug for men, increases the potency and treating erectile dysfunction.

**Generic Cialis** is an exact copy of the famous brand drug for strengthening the sexual function of a man, fully consistent with the original composition, performance and other characteristics. The only difference between a branded drug and a generic drug is its low cost. Indian generic is the best choice in terms of balance of quality, efficiency and price.

The active substance of the generic Cialis is **tadalafil**, the action of which is supported by auxiliary components – lactose monohydrate, magnesium stearate, sodium lauryl sulfate. The medication is available in tablet form: each tablet of Cialis contains twenty milligrams of active substance and is the maximum daily dose.

## Generic Cialis Description

**If you want to feel strong and confident man**, get real pleasure from a long and good sexual intercourse, and also surprise and satisfy your sexual partner, the new and effective generic Cialis is what you need! Unlike its counterpart, generic has a fairly reasonable price, so that men of different levels of prosperity can purchase this remedy.

**Generic Cialis has a beneficial effect on:**

- normalization of blood circulation in the genital area;
- activation of strength and duration of erection;
- stabilization of the level of potency

➤ improving the quality and duration of orgasm;

➤ prolongation of the duration of sex.

## Mechanism of action

Cialis tablets act like Viagra, but significantly exceed it in duration. They are quickly absorbed and act on the smooth muscles of the cavernous body, contributing to their relaxation and blood flow to the penis, resulting in an erection can occur during 36 hours, which makes the Cialis record for the duration of the action.

The influx of blood to the penis occurs under the action of acetylcholine and nitrogen oxide, synthesized by the nervous system. Phosphodiesterase lowers the concentration of these substances and stops the erection. Cialis belongs to inhibitors that selectively act on phosphodiesterase and cause its blocking.

**But the medicine is not an aphrodisiac:** excitation does not come from the drug, but from sexual stimulation. Therefore, when using Cialis, one does not have to worry that an erection will come at an inopportune time. At the end of sexual intercourse, it passes naturally. The maximum effect of the drug manifests itself 2 hours after admission.

Thanks to the Cialis, an erection necessary for sexual intercourse is achieved, the man enjoys and satisfies the woman, acquires confidence in his abilities, which helps to improve mood and improve mental health!

It is worth buying Cialis for men experiencing erectile dysfunction. He will give an opportunity to have a full sexual intercourse. But pay attention to the fact that Cialis only treats impotence, providing the necessary erection, but does not increase sexual desire.

## Composition of tablets Generic Cialis

Packaging of the generic drug Cialis 40 mg contains small circular yellow tablets coated with a thin film membrane. One blister is designed for 10 capsules. All tablets have a pleasantly pronounced flavor of fruit or mint. The basis of the generic Cialis is active substance Tadalafil – an enzyme that normalizes blood circulation in the genital area of men.

**Acting easily and quickly, Tadalafil instantly dissolves in the oral cavity of the patient and enters the bloodstream**, where active production of the necessary substances begins. Tadalafil was tested and tested by scientists from different countries. To date, it is the most well-known and sought-after substance, helping to cope with the problems of sexual impotence.

## Indications for use

Generik Cialis is intended for use by men suffering from erectile dysfunction, as well as having a propensity to develop impotence. Experts recommend that you drink a generic Cialis in the case of changes in blood circulation in the organs of the small pelvis, reducing the level of erection, reducing energy and strength during intercourse, as well as the inability to achieve a bright and strong orgasm.

### Generic Cialis is:

- > rapid and easy dissolution of the drug
- > high duration and effectiveness of the action;
- > excellent tolerability;
- > quite reasonable price;
- > safety in daily use;

### Dosage and route of administration Generic Cialis

The recommended dose is one Cialis generic tablet (40 mg) once a day. Due to the fact that the tablet does not enter the stomach, but dissolves in the mouth, the Cialis generic intake can be combined with alcohol, fatty, salty or spicy food.

**One tablet of the generic Cialis should be drunk 15-25 minutes before sexual intercourse** . It is also necessary to take into account the fact that the action of the generic Cialis lasts for 30-36 hours, due to which it can be taken earlier. The maximum frequency of taking is one tablet per day.

**Taking a generic Cialis** daily, you should realistically look at the problem. After the first or second dose of the remedy, the action may not occur immediately. Depending on the stage of development of erectile dysfunction, the doctor prescribes an individual course of treatment with the drug.

**Contraindications for use Generic Cialis** is not recommended for women, children and persons under the age of majority. Before the beginning of treatment it is necessary to undergo a thorough medical examination, during which it is possible to find out if the patient has an individual intolerance to Tadalafil or to other components of the product. Also it is necessary to exclude from the diet generic [cialis](#) in case of simultaneous reception of nitrate preparations (erinite, nitron, etc.). It is not necessary to use a generic in the event that over the past year a man suffered a heart attack, stroke or other diseases of the cardiovascular system.

### Generic Cialis overdose and consequences

If the above side effects do not last for a long period of time (5-7 hours), this indicates an overdose by the patient of the Generic Cialis. **The most correct decision in this case will be an urgent appeal for advice to a doctor** . An experienced specialist will palpate, listen to complaints and send for a detailed blood test. In accordance with the results obtained, the doctor will be prescribed the necessary treatment.

### Terms and conditions of storage

Conditions and periods of storage of the generic Cialis 40 mg are prescribed in the instructions accompanying the drug. Do not consume the generic product after the expiration date. Do not give the product to the hands of young children. If a child has swallowed at least one tablet, immediately call the hospital for qualified assistance.

Store Generik Sialis in a dry and cool place. Observe the correct room temperature. Regularly cool the drug. The air temperature of the room where the product is stored should not exceed 25-30 degrees.

What is the effectiveness of using Viagra, Cialis and other ED pills?

Nowadays, many men and women experience problems of a sexual nature. And this directly affects the mental state and health. Therefore, they need to be addressed immediately. In this matter, special drugs that can enhance arousal and prolong the pleasure of intimacy provide tangible

help. Moreover, such funds are designed for both men (increase erection) and women (relax muscles and increase sensitivity). But what is the effectiveness of using Viagra and similar generics and is it worth it to use?

Viagra and various analogues (generics) like Cenforce 25, Super Vilitra, Super Vidalista for sale, Filtra Professional and others with proper use give an effect. This is an indisputable fact. More than once studies have been conducted by specialists in this field, during which the effect of Viagra and

the degree of its effectiveness were studied. The results showed that this drug and its analogues give a positive effect that helps to improve the quality of sexual life. In addition, many drugs also improved the hormonal balance of the body, due to the violation of which many problems of an

intimate nature could manifest themselves.

However, it should be noted that the effectiveness of Viagra, Vilitra 60 mg, Cenforce D for sale, Vidalista 40 will be noticeable only when the drug is used in strictly defined doses. Exceeding them can lead to a deterioration in the state of the body and various side effects. Therefore, you should

first consult your doctor regarding the use of Viagra and generics.

Also note that a lot depends on the quality of the drug. So, only proven funds should be purchased in well-established pharmacies. Unknown drugs with dubious contents can cause serious harm to the body. And because of this, you will not feel the full effectiveness of their application.
